

### HANDLEBAR COVER

Refer to the following section for information concerning the handlebar cover on FM and TM models. Refer to Chapter Nine for information concerning the combination meter and cover used on FE and TE models, or FM and TM models so equipped.

### Removal/Installation

1. Park the ATV on level ground and set the parking brake.
2. Remove the front fender as described in this chapter.
3. Disconnect the ignition switch connector (four wires) and indicator light connector (six wires) located on the front wiring connector bracket under the front fender.
4. Withdraw the fuel cap vent hose from the handlebar cover.
5. Remove the handlebar cover cap (**Figure 25**).
6. Remove the handlebar cover mounting screws.
7. Release both ends of the handlebar cover from the handlebar, then remove the handlebar cover assembly.
8. Install the handlebar cover by reversing the preceding removal steps. Check indicator light operation after starting the engine.
